& TOP LOADER

To View Working Units Call: 1-800-363-2639

Top Loader: Reduces stress on deck by equalizing the weight and pressure for safety and balance.

Push Plate: tightens up the top row for balance and safety.

The Deck: The most rigid in the industry.

Headache Rack: The most powerful hydraulic pushing power in the industry.

Flipping Table: reduces stress and damage to loading arm.

Loading Arm: Load on the go! No clutching required. It is also mounted rigid to both sides of the truck frame.

Arm Lock: Unlocks automatically.

Hydraulics: Heavy duty industrial "live" hydraulics.

Pump: Turns off with a flick of a switch upon completion to prevent heating and wear.

Finish Process: Sand Blasted, 2 coats epoxy primer, 2 coats Phillips Acrycote top coat.

• **Patented Telescopic Tongue:** allows for simple transfer of bales from truck deck to trailer deck.

*Loading Action Is
Smooth, Fast and Reliable*

New 8 1/2' transport width option when empty

Unload truck & trailer deck without jackknifing

Transfers load from truck deck to trailer deck in seconds, hydraulically
